VARIEGATEDS UNDERSCORED ARE OUR OWN ORIGINATIONS

Please read the following conditions and terms of sale before ordering:

We will pay transportation charges on all orders selected from this list, but will not accept an order for less than \$1.00 unless 15% extra is enclosed for postage and packing, as otherwise we would lose money on the transaction. Should your order be for as much as \$5.00 or more and you cannot conveniently send all cash, we will hold it on receipt of 20% deposit, the balance to be paid when shipment is requested.

We will sell 3 or more bulbs at the 10 rate, but no single item for less than 10 $\frac{1}{2}$. 25 bulbs or bulblets sold at the 100 rate. An extra bulb or two of Lady Astor or Robert E. Lee will be included, in addition to our usual liberal overcount, for orders of \$3.00 or more.

All stock is offered and orders accepted subject to prior sale.

As to the quality of our bulbs we quote the following from one of our New Jersey customers: "I am pleased with your bulbs and do wish to compliment you on your very fine stock. (What is the Pearson secret?)"

Please read carefully: As our storage facilities are not suitable for warm weather we will necessarily have to get our own planting done in April and May, so we will have no stock for sale after May 15th. Please order before that date and avoid disappointment. Positively all stock not sold by that time will be planted immediately. Remember, too, that the choicest stock always go into the early orders no matter where you buy them.

Large size bulbs are $1\frac{1}{4}$ inches in diameter. Medium size are from $\frac{3}{4}$ to $1\frac{1}{4}$ inches in diameter. Both sizes make excellent spikes and blooms. We reserve most of the small smaller sizes for our own planting stock to make the best blooming sizes for another season.

We solicit your valued orders and promise to satisfy you in every way.
